**AUDIO-BOOKS**

by Robert Carter

If you hear someone say, "I listened to a good book last week," don't be surprised. Many people are listening to audio-books instead of reading books. Audio-books are books which are recorded on CDs or tapes. Once they were used mainly by blind people. Today they are becoming popular with people who are just too busy to read.

- 5 Lawyer Sandra Harris is a good example. Until recently, she only had time to read three or four books a year. "Since I discovered audio-books last year, I listen to them everywhere – when I'm waiting in line at the bank, cooking at home or doing other things," she says. Another fan of audio-books is George Madison, a computer salesman. "I spend many hours on the road," he says. "Now I can listen to books while I'm driving."
- 10 Audio-books are also becoming more common in schools. Frank Adams, a sixth grade teacher, reports that he gives audio-books to children who are weak readers. "For the first time, these kids realize that books can be fun," he says. "Now my whole class can study the same book, even the kids with reading difficulties who had to read easier books before."
- 15 Child psychologist Dr. Betty Richards has a different opinion. She thinks that it is important for kids to read rather than listen. "Reading a book and looking at its pictures help develop the child's imagination," she says. "In addition, reading improves children's spelling." Other people object to audio-books because they claim that you need to concentrate in order to understand what the author wants to say. Therefore people who
- 20 listen to a book while doing other things might miss important details.

However, it looks like many people don't share these objections to audio-books. Audio-books sales increased from 5 million in 2001 to 30 million in 2004. Even public libraries report that more people are borrowing audio-books. It seems that more and more readers are using their ears instead of their eyes.
